SUMMARY

Results-driven Web Developer with over 3 years of experience in web application development and system design, delivering fewer 20 successful projects through meticulous attention to detail. Strong foundation in Laravel, PHP, Java, and MySQL, with proven ability to build responsive and user-friendly digital solutions. Holds multiple professional certifications, including a Junior Mobile Programmer certification from the National Professional Certification Agency (BNSP). Combines technical expertise with analytical thinking and problem-solving skills, and consistently pursues innovation and quality by proactively implementing new tools and processes to software impact.

PROFESSIONAL EXPERIENCE

IT Application Development — PT. Pesta Pora Abadi (Mie Gacoan) Des 2025 - Present

- Developed and revamped internal web applications including Helpdesk System, Document Control Management System (DCMS), and E-Recruitment platform.
- Handled end-to-end development lifecycle from requirement analysis, system design, development, testing, to production deployment.
- Built scalable and maintainable systems using JavaScript, React.js, Next.js, Vue.js, Laravel, MySQL, and PostgreSQL.
- Improved business process efficiency by streamlining ticketing workflows, document control processes, and recruitment management.
- Collaborated with cross-functional teams to deliver technology solutions aligned with operational and HR needs.

IT Academic Staff — Tristar Culinary Institute Feb 2025 - Dec 2025

- Manage and maintain academic information systems to support daily campus operations and data integrity.
- Developed and enhanced internal web applications, streamlining administrative and student processes and achieving a 80% improvement in efficiency.
- Provide technical assistance and training for staff and students on digital tools and platforms.
- Collaborate with academic departments to implement technology-based solutions that enhance learning efficiency.

Internship, Software Developer — PT Kediri Inti Bersama Jul 2023 - Jan 2024

- Developed a web-based workshop booking application using PHP Native, enabling users to make online reservations and receive real-time status updates.
- Implemented customer management and service history features, improving operational efficiency by 90,8%.
- Documented system architecture and feature workflows to ensure maintainability and smooth handover.

KEY PROJECTS

Employee Performance Evaluation System Customer Officer Jan 2025 - Jun 2025

PT Sentra Vidya Utama (thesis)

- Developed a KPI platform featuring multi-role access, automated performance scoring, and interactive analytics tools.
- Enhanced decision-making with drill-down performance charts and real-time data.

Clinic Reservation Platform (KlinikSiJoki)

Jan 2025 - Jun 2025

Freelance Project

- Designed a mobile platform for clinic discovery and booking across multiple healthcare providers.
- Delivered intuitive UX and secure API-driven integration for real-time scheduling.

Smart Workshop Booking Platform

Jul 2023 - Jan 2024

PT Kediri Inti Bersama

- Developed an intuitive vehicle service booking system with real-time tracking and customer management.
- Improved workflow efficiency through clean UI and optimized backend logic.

Utility Solution Technology Based Website

Jan 2023 - Jun 2023

PT Presentologics

- Created a digital solution for utility operations, integrating modern UI, automation, and analytics.
- Delivered a fast, scalable, and user-friendly system for enterprise use.

Android-Based Library Inventory System

Oct 2020

Digital Talent Scholarship

- Built an Android app for efficient library management, featuring CRUD operations, and user authentication.
- Implemented real-time data with a cloud database to ensure accurate and up-to-date.

TECHNICAL SKILLS

Web Development: Laravel, PHP, Java, JavaScript, HTML5, CSS3, Tailwind CSS

Database Management: MySQL, phpMyAdmin, Database Design & Optimization

Frontend Tools: React, Vue.js, Bootstrap, Chart.js

Backend & API: RESTful API, Express.js, JSON, Authentication & Authorization

Mobile Development: Flutter (Basic), React Native (Intermediate)

Version Control: Git, GitHub

UI/UX Design: Figma, Responsive Design, Wireframing

Other Skills: Problem Solving, System Analysis, Documentation, Team Collaboration

EDUCATION

Bachelor of Computer Science

Sep 2020 - Sep 2025

Dinamika University

- Focused on Web Engineering, Software Design, and Data Structures.

Vocational High School - Software Engineering Major

Aug 2016 - Mei 2019

SMK Telkom Malang

- Developed strong foundations in programming, system design, and real-world IT projects.

CERTIFICATION

Junior Mobile Programmer

Aug 2027

BNSP (National Professional Certification Agency)

Front-End & Back-End Web Development Certification

Jun 2027
